

## **MARTA BRANCH WEBSITE**

### **YEAREND REPORT**

**May 2021**

(Prepared / submitted by A. Clark, Branch Online Media Chair)

The MARTA Branch website, like its overarching provincial counterpart, the NBSRT website, has experienced a significant decrease in content posts during the past year, due to the ongoing pandemic and change-of-lifestyle measures being endured. Nonetheless, monthly birthdays, announcements, pertinent information articles, etc., have been posted and made available to the membership, in a timely manner.

I encourage our branch members to at least occasionally checkout both the NBSRT and MARTA Branch websites. Whether out of curiosity or definite interest, one will discover something entertaining and quite possible informative. For example, the “SPOTLIGHT” feature of the NBSRT site hosts incredibly interesting, brief articles of members from the various branches and their impressive skills and talents. Many members, throughout the province, (as we know from our own branch) often possess talents and abilities which have them contributing to the wellbeing and enhancement of their respective communities and society-at-large.

So, on those cool, rainy days when you cannot enjoy gardening, yard work, walks, fishing or other outdoor pursuits, why not pop onto the websites with a warm cup of tea or coffee in hand? Your discoveries may not be earth shattering experiences, but you might be pleasantly surprised.

Respectfully submitted:

A. Clark, MARTA Branch Online Media Chair
